Forestry Facts

1. British Columbia accounts for 21% of Canada's total productive forest land and produces 38% of the national wood volume.
2. British Columbia produces 46% of Canada's total softwood volume.
3. Direct employment in the forest sector in 1987 accounted for 7.4% of total employment in British Columbia.
4. Forest products exports in 1987 accounted for 59% of all British Columbia products exported through all Canadian customs ports.
5. Forest industries accounted for 43% of value of shipments of all manufacturing industries in British Columbia in 1985.
6. 48% of all wages earned from manufacturing in 1985 were earned in forest industries in British Columbia.
7. Forest industries contributed 43% of all value added in the manufacturing sector in British Columbia in 1985.

Wages from Manufacturing
